Bill Counter with ValuCount™

- Advanced money counting combined with counterfeit detection for an all-in-one cash processing solution!
- Counts up to 1,300 bills a minute to make quick work of any cash amount.
- ValuCount™ uses the selected denomination to calculate the total monetary value of bills counted. Functions include Count, Add, Batch and Add plus Batch.
- Ultraviolet sensors check for counterfeit bills and stop counting with an alert if a suspect bill is detected. The UV/MG model includes magnetic ink detection as well for an extra layer of security.
- Infrared detectors ensure that bills are counted accurately and avoid errors such as chains, double bills and half notes.
